

Objectdetail

Object name: water filter

Title: LifeStraw®

Production:

execution: [Vestergaard Frandsen Group SA](#), 2005

Material: plastic

Measurements:

length: 25 cm

diameter: 2.9 cm

Inventory number: DS 108

Acquisition: donation (2012)

Associated object:

Faircap mini ([DS 378](#))

Description: Dieser Wasserfilter in Form eines Strohhalmes kann 4 000 Liter verunreinigtes Wasser in reines, sicheres Trinkwasser umwandeln. Das entspricht der Trinkwasserversorgung von fünf Jahren für eine Person. Er filtert oder reduziert Bakterien, Viren, Parasiten, Mikroplastik, Chemikalien und Blei. This water filter in the shape of a straw can transform 4 000 liters of contaminated water into pure, safe drinking water. That is the equivalent of the drinking water supply for one person over five years. It filters and reduces bacteria, viruses, parasites, microplastics, chemicals, and lead.
